PROFILE

I am a student at Narsimha Reddy Engineering College currently pursuing my under graduation in Computer Science and Engineering with a specialization in Cyber Security and also I am a student at Nxt wave academy, currently learning Full Stack Web Development. Knowledgeable in python language, creating Frontend Websites and have a good knowledge in the the field of Cyber Security. Hoping to apply my skills to support and learn new things from your organization as an intern.

EXPERIENCE

Nxt wave Academy

- Built a Responsive Restaurant Web page using HTML,5 CSS3, and Bootstrap classes which facilitates the user to browse through the various menu items.
- Recently I built my own responsive portfolio website as a part of my learning in the Nxt wave academy, It describes all the projects that I have build during my learning journey.
- I worked as mentor in the Nxt wave academy and mentored some of the students by clarifying their doubts on responsive web design in the topics like Bootstrap grid system, and order classes.

Participations

Elements of Ai

- I have participated in elements of AI, in which i prepared a journal on the applications of Artificial Intelligence and got a participation certificate.

College Hackathon

- I have participated in a Hackathon organized by our College about web development and got a participation certificate.
- Participated in the coding contest organized by our college on python and C language.

Flipkart grid 4.0

- I have participated in Flipkart's grid 4.0 where I got some knowledge about the e-commerce Industry.

Internshala

- I got a certificate from Internshala on Cyber Security and Ethical Hacking.

Hobbies

- Travelling
- Playing Chess
- Outdoor Games
- Knowing about new emerging technologies
- Watching Anime
